

Programme: Horizon EUROPE

NEXUS Twinning Research and Innovation Institutions to Design and Implement Inclusive GEPs	
Le Mans investigator: Angelina ETIEMBLE	Laboratory: gender equality mission
Duration: September 2023 – August 2025 (24 months)	Grant ID: 101094949
Call: Widening pillar, call 2022 WIDERA	

Summary:

NEXUS co-designs, implements, monitors and evaluates innovative and targeted actions aimed at bridging inclusivity gaps in nine research organisations and their respective R&I ecosystems with the aim to bolster institutional change through the development of inclusive Gender Equality Plans (GEPs) in intersectional and intersectoral directions. The project sets up support structures to less experienced institutions to go beyond the minimum GEP requirements through a twinning scheme and the delivery of a tailored capacity-building and training programme.
